

# AIM DIAMOND MESH

Wire netting with diamond or V-shaped meshes. AIM Diamond Mesh is an economical, hard-wearing and effective solution for mining roof support.

## FEATURES

- AIM Diamond Mesh is available fully galvanised or lightly galvanised.
- Suitable for use on uneven surfaces due to the elasticity and flexibility of the mesh.
- Seamless joining. The mesh can be rejoined many times without damaging the barrier.
- Easy roll out.

## STANDARD LENGTHS & PACKAGING

- Custom sizes are available.
- Can be supplied in compact rolls.

## TECHNICAL DATA

Mesh Size mm	Wire Diameter mm	Height mm	Roll Length m
75	3.15	1.8, 2.1, 2.4	9-30
100	3.15, 4	1.8, 2.1, 2.4	9-30
